

23rd June 2021

Dear Parent/Carer

Consent to Process Pupils Biometric Information

The General Data Protection Regulation (GDPR) is the new governing legislation for collection and storing personal data in the EU and will come into force on 25 May 2018 for all organisations. This regulation will replace the Data Protection Act 1998. To ensure we are meeting the new requirements, we need to seek your consent for our new Cashless Catering System.

Biddenham International School & Sports College wishes to use information about your child as part of an automated (i.e. electronically-operated) recognition system. This is for the purposes of paying for school meals. The information from your child that we wish to use is referred to as 'biometric information' (see next paragraph). Under the Protection of Freedoms Act 2012 (sections 26 to 28), we are required to notify each parent/carer of a child and obtain the written consent of at least one parent/carer before being able to use a child's biometric information for an automated system.

Biometric information and how it will be used

Biometric information is information about a person's physical or behavioural characteristics that can be used to identify them, for example, information from their fingerprint. The school would like to take and use information from your child's biometric and use this information for the purpose of providing your child with food in the canteen.

The information will be used as part of an automated biometric recognition system. This system will take measurements of your child's fingerprint and convert these measurements into a template to be stored on the system. An image of your child's biometric is not stored. The template (i.e. measurements taken from your child's biometric) is what will be used to permit your child to access services.

You should note that the law places specific requirements on schools when using personal information, such as biometric information, about students for the purposes of an automated biometric recognition system.

For example:

- (a) the school cannot use the information for any purpose other than those for which it was originally obtained and made known to the parents/carers (i.e. as stated above);
- (b) The school must ensure that the information is stored securely;
- (c) The school must tell you what it intends to do with the information;
- (d) Unless the law allows it, the school cannot disclose personal information to another person/body – you should note that the only person/body that the school wishes to share the information with is Live Register Ltd. This is necessary in order to support and maintain the system.

Providing your consent/objecting

As stated above, in order to be able to use your child's biometric information, the written consent of at least one parent/carer is required. However, consent given by one parent/carer will be overridden if the other parent/carer objects in writing to the use of their child's biometric information. Similarly, if your child

objects to this, the school cannot collect or use their biometric information for inclusion on the automated recognition system.

You can also object to the proposed processing of your child's biometric information at a later stage or withdraw any consent you have previously given. This means that, if you give consent but later change your mind, you can withdraw this consent. Please note that any consent, withdrawal of consent or objection from a parent/carer must be in writing.

Even if you have consented, your child can object or refuse at any time to their biometric information being taken/used. Their objection does not need to be in writing. We would appreciate it if you could discuss this with your child and explain to them that they can object to this if they wish.

If you do not wish your child's biometric information to be processed by the school, or your child objects to such processing, the law says that we must provide reasonable alternative arrangements for children who are not going to use the automated system to pay for school meals.

If you give consent to the processing of your child's biometric information, please sign, date and return the enclosed consent form to the school.

Please note that when your child leaves the school, or if for some other reason they cease to use the biometric system, their biometric data will be securely deleted.

The school is also happy to answer any questions you or your child may have.

Yours faithfully

Eleanor Grylls
Head Teacher

David Bailey
School Principal
