

# END FAMILY

- 1 = most important
- 8 = least (get done after)

bulbs (install them)  
 expensive item)  
 and research seasonal foods)  
 talk to people)  
 shops)  
 install)  
 (that promote sustainability.)

"We can't do anything in the fight against climate change!"

YES, WE CAN! climate change was caused by humans meaning only those who started it can fix it! we all can start small by picking up litter and changing our bad habits. I disagree with this statement as many people are all ready beginning to change! Installing renewable energy sources and converting items to recycle them easily. creating charities. walking, cycling.

# CARBON FOOTPRINT

## HOME:

- I need to improve more on this by being more sustainable!
- I use a lot of technology, try to turn extra lights off?
- Reduce your energy
- Energy efficient lightbulbs

## FOOD:

- Try to eat less meat maybe only once in a week!
- Eat in season. Buy food that is seasonal.
- Embrace new technology

## STUFF:

- Try to buy one expensive item for example: a good pair of trainers
- instead of constantly buying new things.
- Buy second hand phones or used clothes.

less meat dairy.

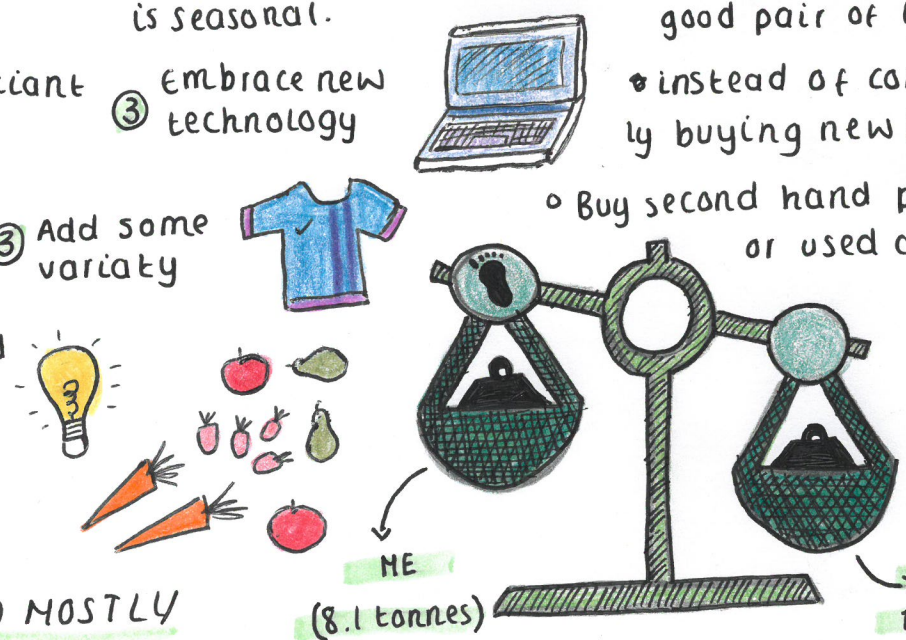

- 2 Eat "in season"
- 3 Add some variety

buy one expensive thing.

- 2 Buy second hand

## PERFECT!

... I WALK TO SCHOOL AND MOSTLY ...  
 ... I USE ENERGY EFFICIENT LIGHTBULBS!

ME  
 (8.1 tonnes)

2021 TARGET  
 (10.5 tonnes)
