

## Homework - Journal Entry

The differences people have in Bedfordshire are cultures, religions, likes and dislikes, sexualities and genders. The similarities are Kid doubt, caring for each other, and education

Racism can arise due to culture, religion, ethnicity and race. People can discriminate against other schools like another pupil from a different school can bully another pupil for winning a competition or being top 1.

We can overcome these problems by being more tolerant to other religions, cultures etc. We can accept that we lost a competition (example) and be proud for them.
