

STUDENT ANTI BULLYING POLICY

At Biddenham, we want everyone to feel happy, safe, and included. Nobody should feel scared or picked on. We do not allow any type of bullying, and we will help and support anyone who is affected, including educating those involved on the impact of their actions. Everyone at our school deserves to feel respected and valued.

Bullying is:

“Repeated negative behaviour that is intended to make others feel upset uncomfortable or unsafe.”

- Diana Award Anti Bullying Campaign Definition

How to Report incidents of Bullying:

- Speaking to your pastoral team - form tutor, AHOY or HOY
- Emailing - pleasehelp@mybiddenham.com
- Completing the anonymous harassment form on the student homepage.

STUDENT ICT ACCEPTABLE USE POLICY

It's important for everyone who uses the school's computers to be careful and respectful of others. Everything is monitored and if the school thinks someone is doing something wrong, they will take action.

We will :

- Ensure our accounts are not accessed by others
- Keep passwords private
- Look after the chromebook, and make sure it is stored safely
- Only use chromebooks for educational purposes
- Always be kind and respectful online
- Only use chromebooks in lessons when directed to by a member of staff
- Respect the filters that are put in place for safety

It is important to be safe online and report anything that looks suspicious or makes you feel uncomfortable.

If someone breaks these rules, they may be placed on limited access or be unable to use the computers or the internet at school anymore.
